**Qty :1**

# Infrared Remote (IR) Overview

## Brightness Control

- Press and hold the **Increment/Count Up** button to increase brightness. Stop at desired setting
- Press and hold the **Decrement/Count Down** button to decrease brightness. Stop at desired setting

**Note:** Brightness can only be set when not in edit mode.

## Display Setup

1. Press the **EDIT** button and input the days (DDDD) you would like to count up or count down from. Use the **Increment** and **Decrement** buttons and press the **EDIT** button when desired value set

**DDDD**

**DDDD** = Days saved on display

2. Input the current hours (HH) in a 24 hour format. Press **EDIT** and use the **Increment** or **Decrement** buttons to set. Press the **ENTER** button to set.

**1 - HH**

**HH** = Hours saved on display

1. Input the current hours (MM) in a 2 digit format. Press **EDIT** and use the **Increment** or **Decrement** buttons to set. Press the **ENTER** button to set.

**2 - MM**

**MM** = Minutes saved on display

3. Input the current Seconds (SS) in a 2 digit format. Press **EDIT** and use the **Increment** or **Decrement** buttons to set. Press the **ENTER** button to set.

**3 - SS**

**SS** = Seconds saved on display

5. Set the display to count up or down.
  - First, press the **Up/Down Edit button**. Wait for the digits to stop flashing
  - Select to count up or down:
    - i. **Count up button** (UP arrow) to count up
    - ii. **Count down button** (DOWN arrow) to count down.
  - Display will flash and begin counting.
